My mandir visit

Before going, choose a question with your grown-up. Afterwards, draw, write or tell them what you noticed. Nothing to collect, no score, and no need to fill every space.

Before we go: one question to ask

Afterwards: draw one detail you remember

A sound or feeling I remember

A kind or helpful action I noticed

One thing I still wonder about

Grown-ups: check your temple's visitor arrangements. Complete this somewhere comfortable after the visit. Personal, family and classroom printing is welcome; keep the attribution.
